Scenario Description

Lesson Objectives

- Identify the purpose of the Message Center and demonstrate how to set it up
- Demonstrate how to add a Proxy
- Recognize how to communicate between therapists and the Rehab PAS Teams
- Demonstrate how to save favorite recipients

Scenario

Kristin is a Physical Therapist that is just arriving to her department. Before she starts seeing her patients, she wants to first check her messages. She would also like to proxy her manager onto her message center so that her manager can monitor her inbox when needed. Let's help Kristin navigate through the message center to show her everything it has to offer for a much more efficient workflow!
